Theodicy (/ ˈθiː.ɒˈdɪ.ʒi /), in its most common form, is an attempt to answer the question of why a good God permits the manifestation of evil, thus resolving the issue of the problem of evil. Some theodicies also address the evidential problem of evil by attempting "to make the existence of an all-knowing, all-powerful and all-good or omnibenevolent God consistent with the existence ...

Firms are usually best off with a portfolio that has a balance of firms in each category. The cash cows tend to generate cash but require little future investment. On the other hand, stars generate some cash, but even more cash is needed to invest in the future for research and development, marketing campaigns, and building new manufacturing facilities.

A revolution is defined as a change in the way people think and behave that is both dramatic in nature and broad in scope. By that definition, cloud computing is indeed a revolution. Cloud computing is creating a fundamental change in computer architecture, software and tools development, and of course, in the way we store, distribute and consume information.
