Evidence of common descent of living organisms has been discovered by scientists researching in a variety of disciplines over many decades, demonstrating that all life on Earth comes from a single ancestor. This forms an important part of the evidence on which evolutionary theory rests, demonstrates that evolution does occur, and illustrates the processes that created Earth's biodiversity.

Hi, I can't believe another week has gone by. A few weeks ago my original intention was to write a post about things to do help manage your PMDD, but there are still a lot of things out there we need to avoid to keep it from getting worse. It won't do us any good to drink, eat and do the right things as long as we are still eating, drinking and doing the things that make it worse.

Which theories & explanations make the most sense? So far, the two leading theories are that we're sliding between parallel (or similar) realities, or that we've visited holodecks (and may be in one, right now) that have some glitches. However, those concepts are broad. I've been trying to narrow the

possibilities.
