believe that theory and the models that flow from it should provide the tools to understand, analyze, and solve problems. The test of a model or theory then should not be based on its elegance but on its usefulness in problem solving. Second, there is little in corporate financial theory that is new and revolutionary.

academicians. The demand for knowledge of finance theory in day-to-day business is ever growing. Therefore, we should encourage the student to challenge finance theory by all means. We should let them fully appreciate that finance theories continuously give a profound impact on professional behavior in the

financial world.
