

### **fleet tactics and coastal pdf**

Artwork by Mel Hunter (1959) As you probably already know, "strategy" refers to the science of successfully fighting an entire campaign or war, while "tactics" refers to the science of successfully fighting a single battle. Predictably some military strategy and tactics are general enough to apply to interplanetary combat, while others do not work at all in the space environment.

The Baltic Fleet began to receive new vessels in 1703. The fleet's first vessel was the 24-gun three-masted frigate Shtandart. She is considered to be the fleet's flagship, and is a prime example of the increasing role of the frigate design.. By 1724, the fleet boasted 141 sail warships and hundreds of oar-propelled ships.
