There are runway markings and signs on most large runways. Larger runways have a distance remaining sign (black box with white numbers). This sign uses a single number to indicate the remaining distance of the runway in thousands of feet.

### **Runway - Wikipedia**

Road surface marking is any kind of device or material that is used on a road surface in order to convey official information; they are commonly placed with road marking machines (or road marking equipment, pavement marking equipment). They can also be applied in other facilities used by vehicles to mark parking spaces or designate areas for other uses.

Organization: In order to accomplish its stated mission, the Traffic Engineering Division is organized into five sections. These are Management and Administration, Signal Systems, Signal Construction and Maintenance, Signs and Markings, Traffic Studies.

## Traffic Engineering Division - Broward County, Florida

On many highways there are yellow curve signs with a speed limit on a small, square sign below the curve sign. I can drive a lot faster around the curve than the speed limit indicated on the sign – why is that?

## Frequently Asked Questions - British Columbia

Part 3 - Markings: Frequently Asked Questions Centerlines. Q: Why can't a single solid yellow center line be used on a roadway open to public travel?; A: A single solid yellow centerline for bi-directional traffic does not have any legal definition and introduces ambiguity to the motorist. The practice to provide a single solid yellow centerline on rural roads, residential streets or narrow ...
